

Demolition Permit Application Checklist

This information is prepared to assist individuals to complete demolition permit applications with minimum delay. This form is required as part of a complete Demolition Permit Application. Building on a farm do not require a demolition permit.

DEMOLITION SHALL NOT COMMENCE UNTIL A DEMOLITION PERMIT IS ISSUED

Project Address _____
Building Size(m²) _____ **Number of Storeys above grade** _____ **Number of Storeys below grade** _____

Ontario Building Code	YES	NO
Does the building exceed 3 stories in Building height?		
Does the building exceed 600 m ² (6,458 ft ²)		
Does the building contain pre-tensioned or post-tensioned members?		
Does the proposed demolition extend below the level of the footings of an adjacent building and within the angle of repose of the soil, as drawn from the bottom of the footings?		
Will there be any explosives or lasers used during the course of demolition?		

If the answer to any question is YES the applicant shall as required by the Building Code Act, retain a Professional Engineer to undertake the general review of the project during demolition. Further, the applicant shall submit, at time of application, a completed Commitment to General Review and a letter detailing the structural design characteristics of the building and the method of demolition.

Environmental Considerations	YES	NO
Is there now or has there been an industrial use of this site?		
Are there any fluid storage tanks above or below grade on site?		
Are there any hazardous products, as defined by WHMIS, on site?		
Does the building contain any asbestos materials?		

If the answer to any question YES, the applicant must contact an environmental consultant to perform an Environmental Building Audit prior to submission of the demolition permit application
